

the range of coolers

PANTAREI

OFFICE - INSTITUTIONS

The first water-fountain water-cooler
on the market with the sparkling water option.

Cool, yes we are.

PANTAREI

Eco-gas, sparkling water, high quality construction, many optional. It's definitely not the "usual" water-cooler...

- Cabinet and sink made from stainless steel.
- Ventilated condenser.
- Removable front panel.
- Exclusive FIZZ version for sparkling water.
- Internal space for 2 kg CO₂ cylinders.
- Thermostat for temperature adjustment.
- School tap with automatic shut off.

Optional extras:

- Filtration and predisposition for internal filter (active carbon + UV).
- Wall bracket.
- Fitted with bracket suitable for boats.

DCT Direct Chill Tank

This is the technology with "water cooling" or "air cooling" that does not require ventilation.

The process of carbonating the water takes place within the shell of the unit.

GAS R290 Natural refrigerant gases

With totally natural refrigerants (HC) such as R290. An ecological choice, with the added advantage of a more silent compressor and ensuring a longer life to entire refrigerant apparatus.
